Bredesen Park D Neighborhood Roadway Improvements

Dear Resident:

Neighborhood Reconstruction Schedule

Water Main Reconstruction – Open Cut

Palda & Sons has started to open cut portions of the water main on Aspen Road between Tamarac Lane and Walnut Drive. This work should be completed early next week. During this process, all traffic will need to use alternate routes during the day.

Water Main Reconstruction – Pipe Bursting

The week of June 23, the contractor will begin reconstructing the trunk water main pipe using a pipe bursting method on Aspen Road, Tamarac Avenue, Tamarac Lane and Walnut Drive. Palda & Sons will dig holes wherever a private sanitary sewer service pipe crosses the trunk water main pipe that is being burst. Exposing the intersection of these two pipes allows Palda to visually verify that the pipe bursting operation does not damage your private sanitary sewer service pipe. This is a precautionary measure and damage is not anticipated.

When Palda reconstructs the trunk water main pipe, they will lay out long strings of new trunk water main pipe along the edges of the street prior to pulling it into the ground. Please do not drive over these as it may damage the pipe. Palda & Sons will coordinate laying out the pipe with you on an as-needed basis so the pipes do not block your access to your driveway.

Schedule

This additional work will increase the project's duration. We will continue to try to minimize impacts to you. Please continue to monitor our weekly City Extra updates. We apologize for any additional inconvenience this will cause. Please understand this repair is necessary so the City can continue to provide drinking water with limited future disruptions.

Communications

Please contact me if you have any questions or comments regarding this project. You can reach me at 952-826-0448 or JFrahm@EdinaMN.gov.

For more information about emergencies, non-emergencies, site safety or what to do when you have special events or home improvement projects planned, visit www.EdinaMN.gov/bredesenparkd.

Please encourage your neighbors to sign up for City Extra emails, as this will be our primary method of communication now that the project is starting.

The City of Edina and Palda & Sons, Inc. thank you in advance for your patience and cooperation throughout the project.

Regards,
Jeff Frahm
Senior Engineering Technician
